

Invitation:
Intergenerational Seminar/ Camp in Nature
15 -20 July. 2024 at IKI-GAIA Ecovillage (Periana, Málaga)

" When the heart of the child is open, he is a genius".
M.P. Schetinin

These days we take our time:

- ... to relax, to move away from the must into the can...
- ... to observe and listen...
- ... to discover ourselves in nature and in each other, and to experience ourselves full of joy

We go on a journey of research and discovery together. Each for himself and all together. We rediscover our inner amazement and our enthusiasm, which shows in the sparkle in our eyes. We "create" an inspiring, loving and natural environment inside as well as outside, in which children and adults can meet, find, be with and learn from each other in a new way.

We draw our strength from common strengths and encouragement, so that we can shape the change in this time with all its challenges with an open heart.

Together we shape our days, from waking up to going to bed. We create new things in meaningful nature projects. We craft, cook, dance, sing, carve, play, are creative, with and in nature. We immerse ourselves in moving conversations and share our diverse and insightful experiences. *We look forward to seeing you!*
